SUMMARY

Ambitious Java/Full Stack Developer with 4 years of experience in designing and developing applications using diverse technologies. Seeking a challenging Java Developer role to leverage my skills and continue learning new technologies.

EXPERIENCE

Software Engineer | Capgemini, Bengaluru, India**.**
(March 22 – Present)

Full-Stack Developer

Agile/Scrum: Managed sprint tasks using JIRA for logging and updates.
Frontend: Developed web layers with Angular, CSS & HTML5.
Backend: Implemented features, fixes and maintenance in Java using Springboot, Hibernate and web services. Utilized Spring ORM for Integration.
Version Control & Deployment: Utilized GIT for Version Control and deployed applications on Tomcat Servers.
Documentation: Updated and Created technical documentation.

POSITION OF RESPONSIBILITY

Siemens Healthineers

- Worked on both front-end and back-end sprint tasks as part of the Agile Scrum team.
- Involved in all agile ceremonies and weekly KTs.
- Identified and fixed bugs in the codebase using debugging tools and techniques.
- Collaborated closely with stakeholders and analysts to enhance the existing applications.
- Contributed to documentation tasks (updating and creation of functional & technical documents).

Specification Creation & Taxonomy Classification

Specification Creation: Collaborated with cross-functional teams (engineering, product, and design) to define clear, actionable specifications for new product features, enhancements, and system requirements. Ensured specifications were comprehensive, precise, and aligned with business objectives.
Taxonomy Classification: Developed and implemented structured taxonomies to categorize and organize large datasets, ensuring consistent classification for better data management, searchability, and reporting. Led taxonomy workshops and discussions to define clear classification rules and manage metadata standards.

SKILLS

- Java
- HTML, CSS, Angular(basics)
- REST API
- Github, JIRA, Postman
- Oracle SQL
- J2EE, Spring Boot
- Debugging
- IntelliJ, Eclipse IDE

EDUCATION

- Bachelor of Engineering | GEC, Raichur. (June 2021)
- XII | M. K. E. T., Harihar. (March 2017)

HOBBIES

- Solving Leetcode problems, Playing Cricket and Machine work.
