OBJECTIVE

Ambitious Software Engineer with 4 years of experience in designing and developing applications using diverse technologies. Seeking a challenging Java Developer role to apply my skills in Java, Spring Boot and API development for scalable and secure web applications

EDUCATION

Bachelor of Engineering, GEC, Raichur, Karnataka

2017 - 2021

SKILLS

Technical Skills:

Programming Languages:	Java, Java8(Stream API, Lambda Expressions)
API Development:	Spring MVC, Spring Boot, RESTful APIs
Database Management:	Postgres, Hibernate, JDBC
Version Control:	Git, Github Actions
Web Development:	HTML, CSS, Angular
Tools:	Postman, IntelliJ, STS(Spring Tool Suite), JIRA
Soft Skills	Problem Solving, Team Collaboration, Communication, Time Management

EXPERIENCE & PROJECTS

Software Engineer

Capgemini

Mar 2022 - Present

Bengaluru, Karnataka

- Worked on both front-end & backend sprint tasks as part of Agile Scrum team.
- Involved in all Agile Ceremonies and weekly KTs.
- Identify & fix bugs in the codebase using debugging tools & techniques.
- Collaborated closely with stakeholders and analysts to enhance the existing applications.
- Contributed to documentation tasks for updating and creation of functional & technical documents.

SIEMENS HEALTHINEERS:

Application designed for hospitals to streamline equipment management, providing staff with a comprehensive equipment information system and an integrated ordering platform.

- Identified and resolved complex bugs through debugging techniques.
- Designed and developed solutions using design patterns and Object-Oriented Design concepts, improving code modularity and maintainability.
- Collaborated closely with clients and analysts to enhance existing application, resulting in improved functionality and increased client satisfaction.
- Authored and updated functional and technical documentation for project deliverables.

Technologies used: Java, Spring Boot, Hibernate, Postgres, Postman, Git, IntelliJ.

LEADERSHIP

- Lead technical discussions in developer communities, sharing advanced resources on Java, Spring and API best practices.
- Guide new team members on Java, Spring Boot, RESTful API development to ensure smooth onboarding.
